***P3a. Description:** (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

Building N-248 is a three-story industrial warehouse with a simple rectangular plan, concrete slab foundation, steel-frame structural system, and shed and gable roof. The building's profile is unusual for this type of industrial building since it appears to be a combination of a gable and shed roof that projects outward. The exterior is clad with corrugated metal siding with no extraneous ornamentation or detailing. Metal staircases providing second floor access are located on the west and east façades. On the north and south façades are overhead steel warehouse doors, centered on each façade. The building is 34,570 sq. ft. in size.

This building appears to be in good condition.
